VIRTUAL

GLOBAL SUMMIT-2

"UPDATE ON VESTIBULAR SCIENCE"

INVITATION

The Trend Proceeds with Global Virtual Summit with "Update on Vestibular Science"

Dear Colleagues, Dear Friends,

Sadly, the Covid 19 SARS 2 virus still threads the World since March 2020. Unfortunately, the plans by postponing scientific meetings 2021 did not work.

The International Vestibular Society keeps the dates of **V. Vertigo Academy International Meeting** as already scheduled to 25-28 November 2021 in Belgrade as already announced. I hope we can achieve.

The World-wide Summit on Vestibular Medicine last year was a great success.

As previously announced the week of April 15 is known as **World Awareness Days for Vestibular Diseases**, so we intended to put the Second Virtual Global meeting into this special week.

We planned to cover the whole topic by inviting distinguished scientists from the World.

The registration will be free of charge.

For two days 9 main sessions are planned to cover 28 Lectures and 11 dedicated sessions with the contribution by 83 esteemed speakers. This will be a scientific feast.

I wish to express my gratitude to Serenas Company, which I believe they are extremely capable of succeeding with this event which more than 4000 participants are expected to be online.

The last but not the least I wish to mention my appreciation to Abbott Healthcare India for their great support.

Until April 17, please stay healthy.
